BOSS:

ILLEGIB

In response to your call to Mr. Echols, he has asked me to pass on the following to you:

"1. Almost without exception conversions from staff status to career agent or contract employee status with retention of civil service retirement and other legal benefits have been at current staff grade of the employee.

"3. One other case can be recalled involving a promotion from grade GS-11 to GS-12 concurrent with conversion from staff to career agent status, but this was a promotion from GS-11 to GS-12. It didn't go outside of the framework. There are no other cases as far as we know."
